

Instructions for Windows Installation of Hardscape Imaging

Thank you for purchasing the Hardscape Design Software. Below are instructions to help you to get started and how to install the programs once you receive the USB.

To get a Head start, while the Hardscape Imaging Program is being shipped:

1. Please be sure to watch the 10 tutorials [HERE](#) they will take you from start to finish on a design, then moving into some advanced training.

2. The [FAQ's page](#) will help you get started and answer simple questions.

4. **IMPORTANT:** Before you install Hardscape Imaging Software Turn Off the "User Account Control" (UAC). Choose your version Windows below:

[Windows 10 - turn off the UAC Video](#) -

[Windows 8 - turn off the UAC Video](#) -

[Windows 7 - turn off the User Account Control](#) -

The USB has Arrived:

1. Take the USB in your hand Estimator side up - hold the outer edges - push downward on the EST of Word Estimator the piece you will insert into the USB slot on the computer will pop out.

2. Turn the USB HIS side up (copper connection needs to be facing up to insert into USB) - insert the stem into the USB slot on your computer. You hear your computer make a clicking sound or beep.

3. The USB should automatically open the root folder if it does skip to 4A. If not, go to MY Computer or This PC - there you find all your drives on your computer - what we are looking for is the Hardscape drive (might not be F like the image below) double click to open the USB.

4. A. You will see many files - scroll to the bottom and - double click the **setup.exe** (application) and follow the prompts. Once HIS starts installing it might take 2+ hours depending on the speed of your computer the drive. **Do not use your computer during this time. (Turn off Sleep Mode)**

5. Running the HIS program for the first time you need to **"RUN AS ADMINISTRATOR"** - Close the HIS program - go to your desktop and put your mouse over the Hardscape Imaging Icon

Instructions for Windows Installation of Hardscape Imaging

and right click your mouse to bring up the menu - now select the "RUN AS ADMINISTRATOR" Command from that menu.

6. Hardscape Imaging Software will open with a registration number visible. Do not close the window. Go right to registration.
7. **REGISTRATION LINK CLICK HERE**- USE THE EMAIL AND PHONE NUMBER ON YOUR INVOICE ONLY.
8. The Second computer works the same way - repeat the steps. DO NOT MAKE UP A REGISTRATION NUMBER.

If you need assistance please use our [SUPPORT TICKET](#) it allows access to our complete support team and ensures we will respond quickly, or call Garry at 818-620-4272 during business hours – 9AM-5PM M-F Central Standard Time.

Thank you again for purchasing,
